

PRODUCT FEATURES

LIVE TRACKING

Stay updated on your car's precise location in real-time.

BOUNDARY ALERT

You can set multiple boundary areas for your car at one time and receive an alert every time your car crosses these boundaries.

LOCATION SHARING

Track your car's exact movements or share it with loved ones for a specified trip at the touch of a button.

DRIVING BEHAVIOUR

Analyse and enhance your driving performance through parameters like acceleration, braking, sharp turns, speed and more.

TRIP DETAIL

Review recent trips to analyse driving performance in greater detail

OVERSPEEDING ALERT

Define a speed limit for your car and get alerts every time it crosses the assigned threshold.

VEHICLE STATUS (MOVING / IDLING / PARKED)

Instantly know when the vehicle is moving / idling or parked with duration

LAST TRIP SUMMARY (REPLAY ROUTE)

Get your last trip's summary at a glance.

AUTHORISED USER

Authorise your friends and family to track the vehicle

DRIVER PROFILE

Manage records of drivers (name, address, contact number, license number, photo)

DRIVER SHIFT MANAGEMENT

Assign drivers to vehicles (shift wise) to track their movements

REPORTS (GRAPHICAL & TABULAR)

Event / feature related reports (vehicle status, speed alert, boundary alert, ignition on, harsh braking, harsh acceleration)

VALET MODE

Track vehicle movement when it has been given to the valet in shopping malls, weddings, hotels etc. and get notified if it is driven more than 1.5 km

DESTINATION ALERT

Set destination alert and get notified when your vehicle reaches the set location.

SCHEDULE SERVICE CALL / VISIT

The user can request a date & time for service call / visit automatically, using the mobile app.

NO SATELLITE COVERAGE INDICATION

An information bar shows up whenever the vehicle is in an area with no satellite connectivity.

DO NOT DISTURB

This feature enables a user to put some or all the notifications on silent mode

PRE-INSTALLATION MODE

The user can request a date & time for new tracker installation automatically, using the mobile app.

MODES - EVERYTIME YOUR CAR IS BEING DRIVEN, PRIORITIES CAN DIFFER. CONSIDERING USER'S PRIORITIES, WE HAVE DESIGNED SEVERAL MODES AND AS PER THE SET MODE, YOU GET NOTIFICATIONS
